Many complaints are made by strangers visiting our town of the want of suitable hotel accommodations, and I have been informed that persons from abroad, after reaching here, frequently leave and go to Washington, in consequence of not being able to procure such accommodations as suit them. I would suggest to our business men generally the propriety of taking some steps to remedy this evil, and if no individual will undertake the business on his own hook, let them call a town meeting, and form a company, either to build a good tavern in a more central part of the town, or fit up in first-rate style the old Union. I feel confident that such an investment at the present time would pay well and be a great benefit to the town.

DEAR SIR: Being on the point of leaving the city, I avail myself of a few idle moment to thank you kindly for the medicine you sent me, and which has restored me to the use of my limbs. I beg you to send me four bottles more, to carry on my voyage. Since I had the fortune to use Dr. Hampton's Vegetable Tincture my confidence is so strong that, in gratitude to the proprietors of said medicing. I have said medicine, I beg you to present my respects to them, and induce them to make it more publicly known as a sure Rheumatic cure. Having called on me on the 19th of April last, and seen me prostrated on my bed, useless in all my limbs, you can appreciate nearly as well as my-self the prompt relief I received from Dr. Hampton's Tincture, and I am positive had it not been for your strong and forcible recommendations I should still have been in bed.

It is really a pity this specific should not be approved by medical men, and like all patent drugs it should suffer the imputation the public generally give to such preparations. I myself, who was always opposed to a patented specific, took this medicine with reluctance, and without confidence in it, and it was only through your disinterest-ed, friendly recommendations, and my critical situation, that induced me to try this really beneficial Vegetable Tineture.

WONDERFUL CURE OF HEREDITARY SCROFULA!

WONDERPUL CURE OF HEREPITARY SCROFULA!
This certificate is from the pen of a gentleman whose name appears on the journal of Congress—one who is extensively and favorably known:
It affords me pleasure to state that Dr. Jesse Hampton's Tineture has effected a most extraordinary cure of my slave boy Albert. The patient was three years old, and had the Scrofula—(his father is scrofulous.) The boy was a moving mass of sores from head to foot; the upper lids of the eyes were much swollen, and turned inside out, exhibiting horrible mattering ulcors, that protruded over the eye-ball so as to produce blindness. It is strange, yet true, this child—that I selt resigned to see die as a relief from suffering—has been restored to health under the treatment of Dr. Hampton.

LOUISVILLE, March 20, 1861.

We have a large number of certificates from our most respectable citizens attesting cures made by this celebrated Tineture of most every disease that "flesh la heir to." After all other remedies have failed, we ask the afflicted to call on the Agents and get pamphlets with certificates of cures.

IMPORTANT FROM CUBA!! A REVOLUTION!

CHARLESTON, July 25. The steamer Isabel has arrived at our wharf. The Cuban accounts are contradictory; but letters received from creditable sources positively assert that many towns are in arms, 5,000 strong in all.

The Queen's troops had suffered a severe loss, and the insurgents are about declaring a Provisional Government. All communications that pass through the mail are opened. An express received on the 22d, dated Principe, 16th, by the Captain General, states that a party, commanded by Joaquin Aquero, dispersed the Government of the Eastern province, five killed; various horses, arms, &c., captured. Many insurgents surrendered, others willing, upon recceiving assurance of pardon.

Another letter says, Aquero is captured; Haana and the rest of the Island quiet as usual, and that the object of contrary rumors is merely to create an excitement in America.

It is said that two spies have arrived in the Isabel, to watch the American friends of Cubaone named Jose M. Blanco De La Tufa.

The cholera and yellow fever are prevailing to some extent at Havana.

There are few Spanish men-of-war in port,

having sailed for Port Principe with Government troops. The French steamer Mogado has been ordered home, and the steamer Model to replace her.

Operations in cotton at Charleston are sus pended. The Arcola, of Boston, sailed from Savannah

on the 25th, the day on which the Isabel arrived. Letters say that a battle was fought between the patriots and Spanish troops at Nucvibas, and five killed-Spanish troops defeated. Nine officers were captured, among The Spanish troops fled in the steamer. The

atriots returned to Neuvibas, one thousand strong, and are receiving reinforcements daily. The Government has two thousand troops in pursuit. Spanish citizens are leaving. New Orleans, July 25 .- The accounts from

Havana respecting the Revolution at Puerto Principe have created the liveliest enthusiasm among the friends of Cuban independence in this city. There was a large mass meeting and torch-light procession last night in celebration of the event. New ORLEANS, July 25 .- We learn from person who escaped from Cuba, that the report of the uprising at Puerto Principe is correct.

The movement was premature, and failed principally for want of arms. Much dissatisfaction revails in the mountainous parts of the Island. great blow for liberty, it is thought, will be ruck in November. New Orleans, July 25 .- The steamship Falon has arrived at this port from Havana. She

brings the California mails, and later accounts from Havana. Private advices state that a evolution had broken out in Matanzas and in Santiago de Cuba. Large hands of the insurgents were in the mountains, and it was supsed the insurrection would spread rapidly. light between a portion of the insurgents and a corps of government lancers, resulted in the defeat of the lancers, and they afterwards joined the enemy. The government was beginning to manifest considerable alarm.

New Orleans, July 25, p. m .- A private letter has been received here from a highly influential American merchant in Havana, stating that the Spanish Government is endeavoring to smother the particulars of the recent outbreak at Puerto Principe, in order to prevent creating a sensation in the United States. The insurrectionary movement is represented as being quite formidable. Americans have been for some time past drilling the insurgents. It is said that a ship from New York, with arms and ammunition for the insurgents, had succeeded in landing her cargo. Several others are daily expected to arrive. The government has spies out in all directions. Two Spanish officers of igh rank had been imprisoned on suspicion of voring the insurgents. It is reported than an American had been garroted on suspicion of being concerned in the insurrectionary move-

SAVANNAH, July 26. - The steamer Isabel from Hayana has arrived, and intelligence that the Patriots had had several engagements with the troops, in one of which the latter were defeated, with the loss of three hundred men. The troops were deserting to the Patriots. The citizens of Matanzas were raising men to assist the Government.

Santa Fe.

St. Louis, July 24.—The Republican has desatches from Independence, giving information that the Santa Fe mail had arrived there. The mail carrier was attacked by Indians on the route, but succeeded in escaping without injury. The territorial judges, with a few tra-ders, had arrived at Santa Fe. The health of Fort Summer was good. Col. Summer's com-mand had taken the Fort Bent route. Some of the troops were still sick. There was, however, but little sickness among the trains of emigrants and traders, who were generally getting along Mexico and Texas-Excitement.

NEW ORLEANS, July 24 .- Dates from Mexico to the 7th inst. announce that the British minister has advised the Mexican government that decisive measures would probably be taken at once, if the claims of English creditors were not settled before the next packet sailed. The French and Spanish ministers said their governments must do likewise. The Danish brig Proper, with the Prussian minister on board was recently wrecked at Vera Cruz. All the

passengers were saved. Revolutions were start-

ing up in all quarters of Mexico. New ORLEANS, July 24 .- By an arrival at this port, we have received advices from Texas to the 18th of July. Great excitement prevailed on the Rio Grande in consequence of the Mexicans refusing to deliver up a runaway slave. An armed party of Texans threatened to capture Presidio. It is said that there are two thousand fugitive slaves in Mexico.

The political feeling in Texas is running very high. The prospects of the growing crops are more favorable.

The Tehuantepec Company is determined,

notwithstanding the decrees of the Mexican government, to go ahead with their work.

Accidents at Boston. Boston, July 26.—The steamer Governor, which left Portland for this place last evening, struck at Whitehead and was sunk. The pas-

sengers were saved by the steamer Boston.

David S. Crosbie and Cabet McClennen, Chief Engineers of the Fire Department, were drowned in the harbor yesterday. Crosbie fell overboard from the yacht Alice, and McClennen in attempting to save him perished.

Five Persons Drowned.

CHATEAUGAY, N. Y., July 22 .- Five young people, named James Ayres, Garret Persey, jr., Sophrania Persey, Mary Crippen, and Daniel Daley, went out on the mill-pond on the Cha-teaugay river for a sail last night. The night was quite dark, and by a sudden movement the boat was upset, and all five were drowned. The bodies were found this morning. Their ages were from seventeen to twenty.

BLACKWOOD'S MAGAZINE, BRITISH QUARTERLY REVIEWS

BRITISH QUARTERLY REVIEWS.

WING to the late revolutions and counter-revolutions among the nazions of Europe, which have followed each other in such quick succession, and of which "the end is not yet," the lending periodicals of Great Britain have become invested with a degree of interest hitherto unknown. They occupy a middle ground between the hasty, disjointed, and necessarily imperfect records of the newspapers, and the elaborate and ponderous treaties to be furnished by the historian at a future day. Whoever reads these periodicals obtains a correct and connected account of all the important political events of the Old World, as they occur, and learns the various conclusions drawn from them by the leading spirits of the age. The American publishers therefore deem it proper to call renewed attention to the works they publish, and the very low prices at which they are offered to subscribers. The following is their list, viz:

The London Quarterly Review,

s their list, viz:
THE LONDON QUARTERLY REVIEW,
THE EDINBURGH REVIEW,
THE NORTH BRITISH REVIEW,
THE WESTMINSTER REVIEW, and
BLACKWOOD'S EDINBURGH MAGAZINE.

THE WESTMINSTER REVIEW, and
BLACKWOOD'S EDINBURGH MAGAZINE.

In these periodicals are contained the views, moderately
though clearly and firmly expressed, of the three greatest
parties in England—Tory, Whig, and Radical; "Blackwood" and the "London Quarterly" are Tory, the "Edinburgh Review" Whig, and the "Westminster Review"
Liberal. The "North British Review" owes its establishment to the last greatecclesiastical movement in Scotland,
and is not ultra in its views on any one of the grand departments of human knowledge. It was originally edited
by Dr. Chalmers, and now, since his death, is conducted
by his son-in-law, Dr. Hanna, associated with Sir David
Brøwster. Its literary character is of the very highest
order. The "Westminster," though reprinted under that
title only, is published in England under the title of the
"Foreign Quarterly and Westminster," it being in fact a
union of the two Reviews formerly published and reprinted
under separate titles. It has, therefore, the advantage, by
this combination, of uniting in one work the best features
of both, as heretofore issued.

The above Periodicals are reprinted in New York, immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful coples of the originals—Blackwood's Magazine being an exact fuc simile of the Edinburgh edition.

of Geology, Massachusetts.*

Amherst College, Dec. 25, 1848.

Mr. Robert Scars—Dear Sir: I have looked over the entire series of your valuable publications with much interest and profit; and am quite surprised at the amount of literary labor you have performed, and the research it must have cost you to obtain so many fine illustrations, while you have an active superintendence of an extensive business. I am also gratified at the decidedly moral and religious influence which your books will exert, and cannot but hope that they will do much to counteract the effects of that light and immoral literature which deluges the land, and, like the frogs of Egypt, comes up even to the kneading troughs of our kitcheus. May you live long to follow your plans.

Respectfully and sincerely, your obliged servant, EDWARD HITCHCOCK.

* The works alluded to as having been examined and of Geology, Massachusetts.*

*The works alluded to as having been examined and recommended, are as follows: A new and popular Pictorial Description of the United States, Pictorial History of the Description of the United states, Pictorial History of the American Revolution, Scenes and Sketchess of Cantinental Europe, Description of Great Britain and Ireland, Picto-rial Family Annual, Treasury of Knowledge, Information for the People, The Family Instructor, Pictorial Sunday Book, Bible Biography, Bible History, and second series of The Wonders of the World.
